

Ph.D., M.Sc.

CAMILO GARCIA-TENORIO

Dr. of Engineering Sciences / Mechanical and Mechatronic Eng.

FACTS

Areas of specialization

Control Systems • Data-Driven Control
Machine-Learning • Identification
Subspace Methods • Digital-Twins
Industry 4.0 • Matlab

SKILLS

Languages

Spanish	C2	mother tongue
English	C2	
French	A2	

Interests

OS:   

IT & programming

L ^A T _E X	
MATLAB	
linux	
python	
Julia	

SHORT RESUMÉ

2020–202x	Post-Doctoral Researcher RESEARCHER · Université de Mons 📍 Data-driven (Machine Learning) model and control of Industrial lime production. Python and Matlab algorithm based on EDMD.
2015–2021	Ph.D. Candidate RESEARCHER · Cotutelle - Umons-Belgium/Unal-Colombia 📍 Extended dynamic mode decomposition • Koopman operator • Regions of attraction • Nonlinear models • Model predictive control •.
2010–2015	Lecturer, Automation Salesman, Teaching Assistant, Project Manager VARIOUS POSITIONS · Colombia 📍 Control systems lectures • Quote and sell automation solutions • Laboratory and complimentary lectures • Automate banking solutions • Manage post-sales activities.

DEGREES

2021	Philosophical Doctor in Engineering Science Ph.D. · Umons/Unal · Bel/Col 🏛️
2014	Master of science in Electronic Engineering M.Sc. · Los Andes · Colombia 🏛️
2010	Electronic Engineer B.S. · Los Andes · Colombi 🏛️

CERTIFICATES & GRANTS

2021	Artificial Intelligence
2014	Sales Management
2010	Project Management

STRENGTHS

focused autonomous resilient
adaptable communication
